

Product Name :
Density Identification Set

Product Code :
NELAB-21-A5004

Description :

Density Identification Set

Technical Specification :

Density Identification Set of 12.

Storage rack coated in linseed oil for protection from wet specimens.

Set can also be used with a water displacement apparatus, such as an overflow can.

Each cylinder varies in size and density since it is constructed of a different material.

All are 1.3 cm (1/2") in diameter and range between 4 and 7 cm in length.

Cylindrical samples vary in length and density.
