#### Description :

Diesel Injection Pump Cut-Away, with Inline 4 and Pneumatic Governor, Bosch

This product is a diesel injection pump with a 4-cylinder inline configuration and pneumatic governor originally manufactured by the company Bosch. This injection pump is suitable for use in a medium displacement engine and easily allows you to:

- Differentiate between and effortlessly identify the distinctly painted and cross-sectioned mechanical parts.
- Point directly to the featured pneumatic speed governor (rock rod or acceleration rod controlled by a diaphragm connected to the suction collector).
- Control the speed of the injection pump by way of a crank handle.
- Describe the function of the feeding pump, which is also included.
