

Product Name :

Equotip Piccolo Portab for engineering schoolsle Hardness Tester for
NDT Metal Testers Lab

Product Code :

NANM-M2

Description :

Equotip Piccolo Portable Hardness Tester for NDT Metal Testers - The Most Advanced Integrated Tester

- Portable Hardness Tester
- Revolutionary impact device with single motion load & release mechanism
- Highly accurate in any impact direction - automatically
- Converts to all common hardness scales (HV, HB, HRC, HRB, HS, Rm)
- Custom conversions for uncommon alloys
- Statistics (average, standard deviation, min/max, range)
- Internal, non volatile data storage of fully tagged readings
- Instant reading from large, high-contrast LCD
- Intelligent self diagnostics
- Virtually unlimited impacts per battery charge cycle
- Smart recharging of built in Li-Ion batteries while USB connected
- USB: data and software transfer with versatile PC application
- Ready for automatic testing

Application Range :

1. Good for all materials
2. Ideal for production level testing
3. Best suited for on-site testing of heavy, big or already installed parts
4. Handy for difficult to access or confined test locations
5. Automatic sensing and compensation for impact direction
6. Excellent for material selection and acceptance tests
7. Easy to use and accurate on curved test surfaces ($R > 10$ mm)

Primary Industries :

Metal production & processing

Automotive & transportation

Machinery & power plants

Petro-Chemical, refineries

Aerospace & shipyard

Metal constructions

Testing services & laboratories
