

Product Name : FLOW OVER A NOTCH	Product Code : Workshop Lab - HBW0009
	
Description :	
FLOW OVER A NOTCH	
Technical Specification :	
Three weir plates, a rectangular notch and two vee notches, are provided. Characteristic s of flow over the notches can be observed and coefficients of discharge can be determined. The plates are attached to the open channel of the Hydraulics Bench . Water is supplied to the channel via a discharge diffuser and passes through a stilling baffl e to smooth the flow. A vernier hook and point gauge is provided to measure the height of water level in the channel.
