

Product Name : HYDROSTATIC PRESSURES	Product Code : Workshop Lab - HBW0006
--	---

Description :
HYDROSTATIC PRESSURES
Technical Specification :
A quadrant is mounted on a balance arm pivoted on knife edges which coincide with the quadrant center. When the quadrant immerses in water, there are hydrostatic forces. The balance arm has an adjustable counter balance and weights with a hanger. The quadrant is mounted on top of a clear acrylic tank which allows water to be admitted and drained to a required level by a valve. The tank rests on adjustable footings and a bull's eye level is provided.
