|---------------------------------------------|---------------------------------------------|
| <b>Product Name :</b><br>Magnesium Fluoride | <b>Product Code :</b><br>NECHEMICAL-L601809 |
|                                             |                                             |
| <b>Description :</b>                        |                                             |
| Magnesium Fluoride                          |                                             |
| <b>Technical Specification :</b>            |                                             |
| Assay: 97.0%                                |                                             |
| Molecular Formula: MgF2                     |                                             |
| Grade: Laboratory Reagent (LR)              |                                             |
| Molecular Weight: 62.3                      |                                             |
| Appearance Form: Crystalline                |                                             |
| Colour: Beige                               |                                             |
| Relative density: 3.15 g/cm3 at 25 °C       |                                             |
| Capacity: 500 gm, 2.5 kg                    |                                             |
