|              |                                             |
| <b>Description :</b>                                                                            |                                             |
| Portable Sanding Machine                                                                        |                                             |
| <b>Technical Specification :</b>                                                                |                                             |
| Abrasive sheet size: 280 x 115mm                                                                |                                             |
| pad size: 225 x 115mm                                                                           |                                             |
| Oscillating speed: 16000 rpm                                                                    |                                             |
| Orbit diameter: 2.5mm                                                                           |                                             |
| Elec. motor power: 450w, single phase, 220V, 50Hz.                                              |                                             |
| Supplied with 3 sets of abrasive sheet                                                          |                                             |
| Installation and operation manuals and service manual with circuit/system schematics in English |                                             |

**Address:** 6148/6, Guru Nanak Marg, Ambala Cantt, Haryana, India, **Phone:** +91-0171-2643080, 2601773
