

|                                                                                                                              |                                  |
|------------------------------------------------------------------------------------------------------------------------------|----------------------------------|
| <b>Product Name :</b><br>Properties of Hardened Concrete                                                                     | <b>Product Code :</b><br>NCC0024 |
|                                           |                                  |
| <b>Description :</b>                                                                                                         |                                  |
| Properties of Hardened Concrete                                                                                              |                                  |
| <b>Technical Specification :</b>                                                                                             |                                  |
| <b>Objectives:</b>                                                                                                           |                                  |
| To determine compressive strength of concrete and its variation with water/cement ratio, curing, age, and shape of specimens |                                  |
| To determine tensile strength and modulus of elasticity of hardened concrete                                                 |                                  |

**Address:** 6148/6, Guru Nanak Marg, Ambala Cantt, Haryana, India, **Phone:** +91-0171-2643080, 2601773
