|----------------------------------------------------|---------------------------------------------|
| <b>Product Name :</b><br>Silver Fluoride           | <b>Product Code :</b><br>NECHEMICAL-L602707 |
|                                                    |                                             |
| <b>Description :</b>                               |                                             |
| Silver Fluoride                                    |                                             |
| <b>Technical Specification :</b>                   |                                             |
| Assay: 99%                                         |                                             |
| Molecular Formula: AgF                             |                                             |
| Grade: Analytical Reagents (AR)                    |                                             |
| Molecular Weight: 126.87                           |                                             |
| Appearance Form: Solid                             |                                             |
| Colour: brown, tan                                 |                                             |
| Melting point/freezing point: 435 °C               |                                             |
| Initial boiling point and boiling range: 1,150 °C  |                                             |
| Relative density: 5.852 g/cm <sup>3</sup> at 25 °C |                                             |
| Capacity: 5 gm, 10 gm                              |                                             |
