

Product Name : Spring Loaded Safety Valve - Heat Transfer Training Systems and Heat Lab Engine Trainers for engineering schools	Product Code : NEMHTM14
	
Description :	
Spring Loaded Safety Valve, technical teaching equipment for engineering - Heat Transfer Training Systems and Heat Lab Engine Trainers	
Technical Specification :	
Loadable Safety Valve Model having two separate valves with one lever loaded by a spring. We are able to offer a superior quality range which are manufactured with best in class Steel and cast materials. The Customization of our products are done as per the demands of customers with our high grade engineers and reliable engineers. Moreover, we make sure that the quality check is done with multiple testing and runs. Here is picture pictures on this. Features: ● Efficient working ● Perfect fittings ● Smooth working ● Handle extreme pressure ● Very Long Lasting	

Specifications

- Capable of working efficiently in tough conditions
- Resistant to corrosion and heat
- Low maintenance
- Superior quality steel used
- Easy to clean
