

Product Name :
Turbo-starter, Small Turbine Engine

Product Code :
TechnicalLab0501

Description :

Turbo-starter, Small Turbine Engine

This product is a cut-away of a turbo-starter for a small turbine engine.

The working principle is the same of turbine engines, but thanks to its small dimensions it is more suitable for training purposes. The turbine has the function to convert thermal energy into mechanical energy. All parts are clearly visible.

SPECIFICATIONS:

- Combustion chamber
- Fuel System
- Injector
- Ignition System
- Epicyclic reducer
- Turbine
- Operated manually by hand crank
- Mounted on a base
