

Product Name : Zener Diode Voltage Regulator Trainer for Electronics Teaching Labs	Product Code : BEL-TR-09
--	------------------------------------

Description :
Zener Diode Voltage Regulator Trainer - Zener Diode Voltage Regulator Trainer - Zener Diode Voltage Regulator Trainer has been designed specifically for the study of regulated power supply based on zener diode. As zener diode is generally employed in a standard circuit as a voltage regulator, it is very useful for students to study the operation of zener diode as a voltage regulator with the variation in source voltage and load resistance. training board is provided with different sections of a regulated power supply i.e. step-down transformer, bridge rectifier, capacitive filter and voltage regulator. Provided with different sections of a regulated power supply Good quality, reliable sockets and test points are provided Strongly supported by systematic operating instructions and theoretical details A low cost training system
