

Product Name :
Zero Air Gas Generator For Testing Lab for Gas Chromatography Lab

Product Code :
GGEN-S001

Description :

Chromatograph Gas Generators for Gas Chromatography - Zero Air Gas Generators are available using the PSA Technology as well as high volume self indicating Desiccant Purification Technology. Our Zero Air Generator consists of Oil Free Compressor, Storage Pressure Vessel & Purification system. Zero Air Generator are complete systems with state-of-the-art, highly reliable components engineered for easy installation, process and long term standard performance.

Type of systems

High Capacity multiple stage adsorbents

Purity levels Zero Air grade ideal for high sensitivity FID systems & TOC

Flow Rates

2 LPM to 6 LPM depending upon the model selected

Pressure

75 to 90 PSIG depending upon the model selected

Type Of Compressor Oil free wobble free from Germany (Internally mounted)

Zero Air Storage Volume 80 liters to 210 Liters depending upon the model selected

Size of the Systems

Compact table top models or under table systems with castors for easy manouveribility

Noise

45 dB to 50 dB depednig upon the model selected

Channels from 1 to 6 depending upon model selected

Start Up Time 15 minutes

Power Supply 230V AC, 50 Hz, Single phase

Weight 45 kgs to 115 Kgs depending upon the model selected
